

# Why Cable Exchange?

## 1. Quick-Turn

We deliver fully customized assemblies fast—Typically within five day turn-around with accelerated 24–72 hour turnaround available for urgent needs. Our coast-to-coast footprint ensures fast turn-around.

## 2. High-Speed Connectivity

From our East and West Coast manufacturing facilities, we fabricate custom assembly to meet your exact specifications—including fiber patch cables, MTP, fiber trunks and copper patch cables.

## 3. Engineering Support

Our engineering team delivers sophisticated, hands-on technical expertise—supporting everything from “Bill of Material” development to site evaluations and fully tailored solutions engineered to your exact specifications.

## 4. Communication

Our dedicated U.S.-based support team is always ready to help, delivering fast, knowledgeable assistance with orders, quotes, and more. You’ll connect with a live expert with minimal wait, every time.

## 5. One-year Warranty

By joining CommScope, we’re backed by a global leader in research, distribution of cabling infrastructure, and manufacturing which allows us to provide **CommScope’s one-year limited warranty**.
