

Hardened Terminals Solution

Flexible solutions for the evolving networks of tomorrow
North America Region

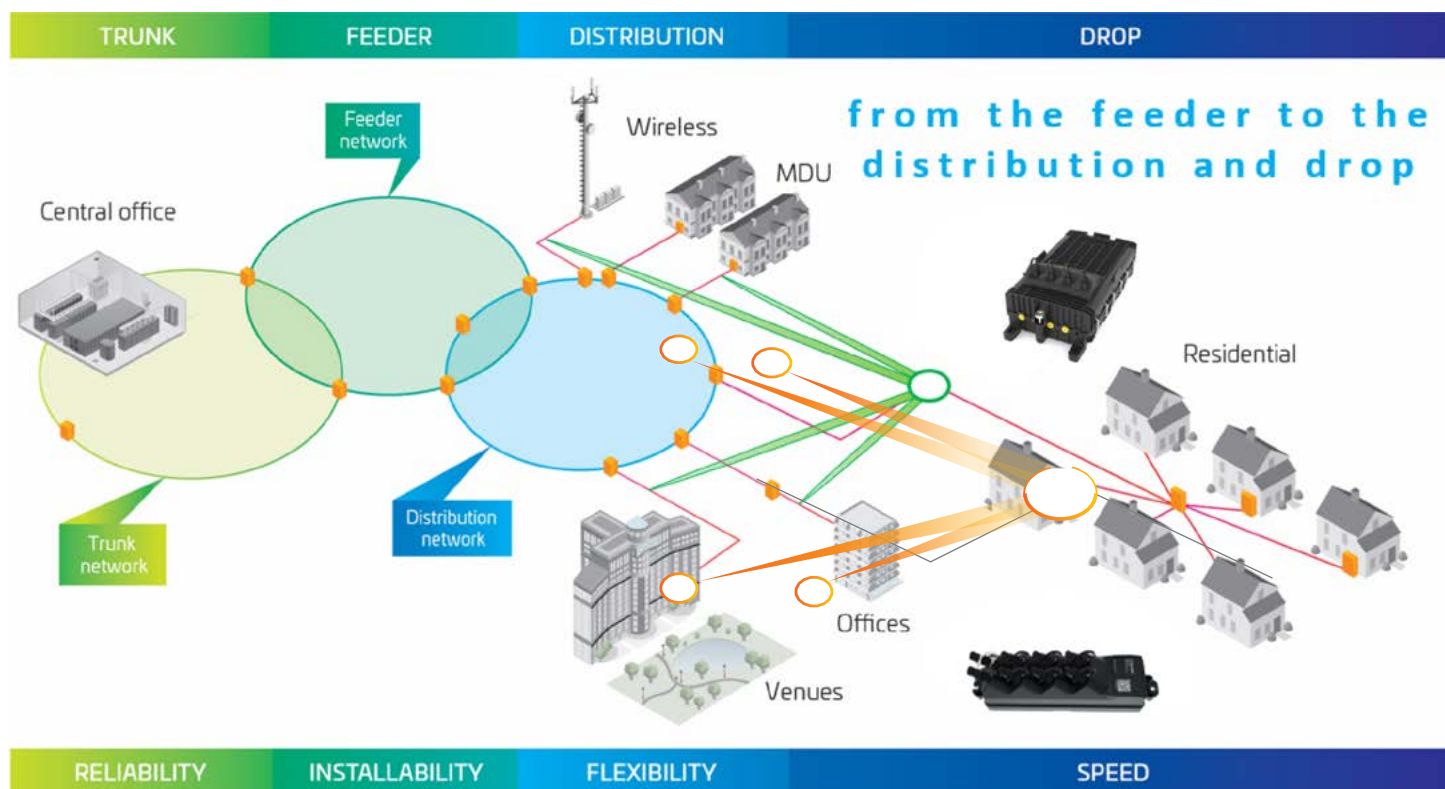

CommScope Hardened Terminal Solutions

At CommScope, innovation meets reliability with our new generation of Hardened Terminals—engineered to empower your fiber network deployments with unmatched speed, flexibility, and durability. Designed for today's demanding environments, simplifying the installation with plug-and-play reducing deployment time and costs.

Whether you're expanding urban networks or reaching remote rural communities, our terminals deliver superior performance with a modular, scalable architecture. From single and multifiber distribution to fiber indexing technology and cascaded tap architectures, our product portfolio offers versatile mounting options and cost-optimized solutions tailored to diverse FTTH applications.

Discover how CommScope's Hardened Terminals can transform your network—maximizing ROI, accelerating deployment, and future-proofing your fiber infrastructure. Let's build smarter, faster, and stronger networks together.

Explore The Hardened Terminals Portfolio and find the perfect solution for your next project.

CommScope Hardened Terminal Solutions

Hardened terminals

Hardened Terminals	Technologies available	Small	Medium	Large
HST Series	Single-fiber: P2P/no splitters	2 ports	6 ports	12 ports
		4 ports	8 ports	
	Single-fiber: P2P w/splitters	2 ports, 1x1:2	8 ports, 2x1:4	12 ports, 3x1:4
		4 ports, 1x1:4	8 ports, 1x1:8	
HST Series	Hybrid for multi-use		7 ports, 1x1:4 splitter, 3 P2P	12 ports, 1x1:8 splitter, 4 P2P
		4 ports, 1x1:2 splitter, 2 P2P	8 ports, 1x1:4 splitter, 4 P2P	11 ports, 2x1:4 splitter, 2 P2P, 1 HMFOC 4f
HMT Series	Multi-fiber	Up to 48f	Up to 96f	Up to 24f
		2 ports, each 2, 4, 6, 8, or 12f	6 ports, each 2, 3, or 4f	12 ports, each 2f
		3 ports, each 2, 4, 6, or 8f	8 ports, each 2, 3 or 12f	
		4 ports, each 2, 4, or 6f		
HTT Series	Optical taps	2 drops	4 drops	8 drops
HXT Series	Fiber indexing	12 fiber index only, 1f	12 fiber 1:4	12 fiber 1:8
		12 fiber index only, 2f	12f multi-use 2f + 1:4	12 fiber multi-use, 3f +1:4
		12 fiber index only, 3f	24f multi-use 2f	12 fiber multi-use, 4f +1:4
		12 fiber index only, 4f	24f multi-use 3f	12 fiber multi-use, 2f +1:8
		12 fiber multi-use, 2f	24f multi-use 4f	
		12 fiber branching,		
		2 to 6f per port		

As part of our continued effort to simplify product identification and enhance operational efficiency in the field, a color-coded lanyard system has been implemented across our Hardened Terminal (HT) product families—HST, HXT, HTT, and HMT. Each lanyard color and label has been designed to provide quick visual reference for technicians, indicating specific port functions within the terminal.

This standardization improves clarity during installation and maintenance, supporting faster deployment and reducing potential errors in multi-port environments.

For more details on how these ports relate to specific network configurations or for compatibility support, please reach out to our Technical Assistance Center team or your Sales representative.

N		Standard port HST-HXT-HTT
1		First output port splitter HST-HXT
A		Forward feed multifiber HXT
R		Reverse feed HXT
A		TAP input HTT
B		Throughput HTT - single fiber HXT
N		Multifiber HXT-HMT

Hardened Terminals Mounting Options

Universal Mounting Bracket
Designed to attach to the integrated mounting features located on the back of the terminal.
Sold separately.

Specialty Terminals Adapters Configuration

Commscope's Specialty Terminals offer different alternatives for adapters including the Full Size connector and, Prodigy universally compatible with multiple hardened fiber connectors as common features among all components.

BENEFITS

- **Pay as you grow:** Lower home passed cost, specially with lower take rates. HxT only installed when customer connections needed.
- **Flexibility:** All possible technologies combined in one ODN.
- **TAP:** Very similar to coax tap technology.
- **Indexing:** Perfectly adapted to index brownfields or new deployments.
- **Stubless:** Fewer SKUs on terminals.

Mounting Options

Strand mounting

Pole mounting*

Any Application. Any Configuration. One Portfolio.

CommScope's family of optical termination enclosures (OTE) was specifically designed to streamline and speed the deployment of fiber while delivering long-lasting reliability and peace of mind. Composed of four OTE series, this portfolio was designed with an almost limitless choice for sizes, styles, and configurations to accommodate nearly every unique deployment need.

These robust enclosures feature pre-connectorized hardened adapter ports and are fully compatible with full size and Prodigy Adapters. They provide plug-and-play simplicity for deploying and managing fiber optic connections. They also offer a unique solution for splicing, termination, and pass-through cable requirements in FTTx architectures to facilitate deployment.

CONFIGURATIONS

Mini-OTE (OTE-300)

- 2, 4, 6, 8, or 12 Ports
- Stub or In-Line application
- Available with Prodigy or Full-Size adapter
- No Splitter, Splitter or TAP configurations.

Flexible Service Terminal with Splitter

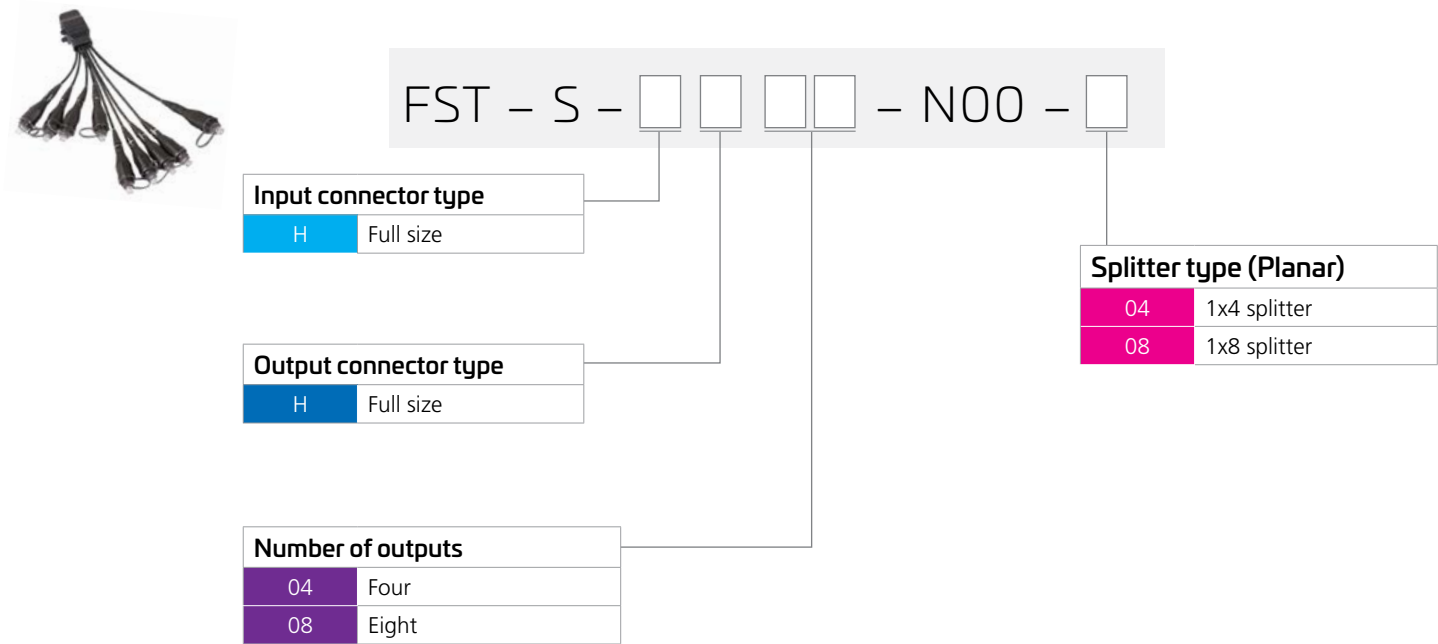

Flexible Service Terminal Series — Purpose-Built for Space-Constrained Environments

The flexible service terminal (FST-S) series is engineered for fast, reliable network connections in difficult, space-constrained installation environments.

The compact terminal unit is paired with staggered-length connectorized cables to provide installers maximum flexibility, even in the tightest spaces. Hardened stubs enable quick, reliable plug-and-play integration with the network.

The FST-S's unique design also streamlines maintenance: its flexible hardened adapter stubs can be easily cleaned and reconnected without removing the terminal from its installed position.

The FST-S is available with full size adapters and an optional factory-integrated 1×4 or 1×8 planar splitter.

Engineering the future of broadband™

Service providers across North America trust CommScope for complete, end-to-end Fiber-to-the-Home (FTTH) solutions that optimize broadband deployments with reliable quality. Our proven, innovative technologies help deploy faster, simplify management and scale to meet the demands of modern connectivity, advancing Broadband For Everyone™ solutions. Backed by 50 years of U.S.-based expertise and offering [Build America, Buy America \(BABA\)](#)—compliant products tailored to today's standards, CommScope empowers providers to deliver future-ready networks while maximizing cost efficiency and supporting long-term value.
