

From the Network to the Racetrack: Performance Matters Most

Just like in Formula 1 racing, broadband deployment demands more than speed—it takes precision, endurance and teamwork. CommScope delivers all three. From your starting grid to the final lap, we help you build fast, deploy smart and stay ahead.

PRE-RACE PREP: TRAIN THE CREW, BUILD THE MACHINE

FTTmaX™

Driver Training to Perfect Every Maneuver

Prep the crew. Master the course.

 Real-world fiber-to-the-home (FTTH) training from industry pros

 Tailored e-learning curriculum for urban, suburban and rural builds

 Aligns with BEAD workforce requirements

HeliARC®

Lightweight Cables Built for Endurance

Rural routes? No problem.

 High strength-to-weight ratio

 Optimized for overhead and rugged terrain

 Right-sized for low-density deployments

PROVIDES 2X
CABLE LENGTH
PER STANDARD REEL

RACE DAY SETUP: ENGINEER MAXIMUM SPEED

Prodigy®

The Engine at the Core

Power your build with precision.

 Modular, scalable fiber platform for long-lasting networks

 Universal plug-and-play design simplifies and speeds crew training

 Hardened connectivity solution, optimized for rugged performance in any outdoor environment

Outside Plant Services

Your Pit Wall Engineers

Smart planning. Executed flawlessly.

 Turnkey support to help operators design, streamline and execute

 Cost-efficient, BEAD-ready strategies

 Ideal for urban edge-outs and rural expansions

With integrated mounting tabs—and no extra brackets—the Prodigy® terminal reduces your footprints by up to 67%

MID-RACE STRATEGY: SCALE AND ADAPT ON THE FLY

High Density OFDC-C12

Compact design. Unstoppable performance.

 Compatible with up to 288-fiber cable

 Modular removable splice holders

 Improved gel seal technology

FINAL LAP: DEPLOY WITH CONFIDENCE, FINISH STRONG

We don't just equip you for the race—we're in it with you. From city grids to rural roads, our fiber platforms, training and services help you cross every finish line ahead of the pack.

Why Service Providers Choose CommScope:

 Complete, end-to-end FTTH solutions for faster, smarter deployments

 Winning heritage with 50+ years of proven, innovative FOSSC® technologies, trusted by service providers across North America

 Advancing Broadband For Everyone™ solutions with built-in, long-term value

Visit commscope.com to learn how we're accelerating connectivity.
